As the COVID-19 pandemic wears on, OEO recognizes these are very hard times in our communities, and many students in juvenile rehabilitation or juvenile justice systems may be struggling to access education.

OEO is a resource that can help address concerns about K-12 public schools. Please contact OEO if you are a community professional working with families of school-age children who need school-related assistance.

OEO's legislative mission is to reduce opportunity gaps. Our strategic plan priorities concentrate on education justice, especially for communities most affected by COVID-19. We are focusing our limited conflict resolution resources, such as informal mediation and coaching, on K-12 students who are:

- Involved with the juvenile justice or juvenile rehabilitation systems
- Out of school, including students with disabilities receiving partial school days
- Experiencing homelessness
- People of color, Black, or indigenous
- In kinship or foster care
- Immigrant, refugee, asylee, or migrant, or students or families whose primary language(s) is not English, or
- Receiving Wraparound with Intensive Services (WISe) or Children's Long Term Inpatient Programs (CLIP) supports

Supports look different in this time of COVID and OEO can help students who are in juvenile rehabilitation or juvenile justice systems. Please contact us.
